EXECUTIVE SUMMARY

Geomar Gulf LLC is based in UAE as a foundation specialist licenced for both design and construction of all kinds of onshore and offshore piling and shoring works.

Geomar Gulf LLC is a partnership between local Al Shafar Group of U.A.E and Geomar A.S. of Turkey that has been established in the U.A.E since 2004 and is capable of undertaking and designing in every aspect of the Infrastructure works in Geotechnical Field. We completed numerous number of projects in Oman, Turkmenistan, Iraq, Abu Dhabi and Dubai and as Geomar Gulf LLC we are ready to serve our professional services for offshore and onshore infrastructure in middle east and Africa region

The company is managed by a top management team that has over 30 years of experience working in Middle East and Russian countries; thus, we possess an in-depth knowledge of the international market and extensive knowledge of the ground conditions.

Our vision is to offer our clients foundation solutions with optimum engineering and assist them with the value engineering of your projects.

Geomar Gulf LLC has the financial backing of the Al Shafar Group. Al Shafar Group was established in early 1960s and has made a significant contribution to the development of Dubai since the 60s. There are 24 companies under the umbrella of the Al Shafar Group.

INTRODUCTION AND BRIEF HISTORY

As Geomar Gulf LLC, during the past 20 years we are active and licenced in UAE ,and completed over 150 projects. Our services as geotechnical onshore and offshore contractor includes but not limited to design and execution of cast in situ bored piles from 200 mm to 3000 mm in diameter, ability to perform load tests up to 3000 tons, driven piles, soil improvement, jet grouting, sand pile, ground anchors, all kinds shoring (sheet piles, secant piles, soldier piles, etc), monitoring, dewatering and excavation works.

Geomar Gulf LLC has been involved in several projects in both design and execution stages since its foundation and took its place as one of the well-known piling companies in Dubai. Geomar AS of Turkey is a veteran in the field of geotechnical works and can extend resources to Geomar Gulf as needed. Geomar AS is one of the most active and well-known piling companies in Turkey and was founded by a team who has over 35 years of experience in the Geotechnical field.

GEOMAR GULF VISION

Geomar Gulf LLC aims to achieve a highly acclaimed status as a Foundation Specialist Contractor known for its promising capabilities by consistently improving and delivering exceptional ground engineering solutions and breaking new grounds with newest technologies that is sustainable, quality assured and economical via value engineering.

GEOMAR GULF MISSION

Geomar Gulf LLC's goal is to ensure that all projects are accomplished in the best quality of professionalism by providing highly trained engineers and labours that reflects the company's name and status. We aim to create more and maintain long term relationships between our clients that is based on trust, mutual benefit, flexibility and respect. The following factors help us achieve success;

- Excellent workmanship, teamwork and efficiency
- Developing and retaining business relations with potential and existing clients
- Firm on-site management
- Value engineered project estimation

GEOMAR GULF POLICY

Geomar Gulf LLC is committed to deliver high quality services that conform to all relevant ISO Standards. We ensure that all personnel fully understands and comply with all company policy such as Health & Safety Policy, Environmental Policy and Company Quality Systems.

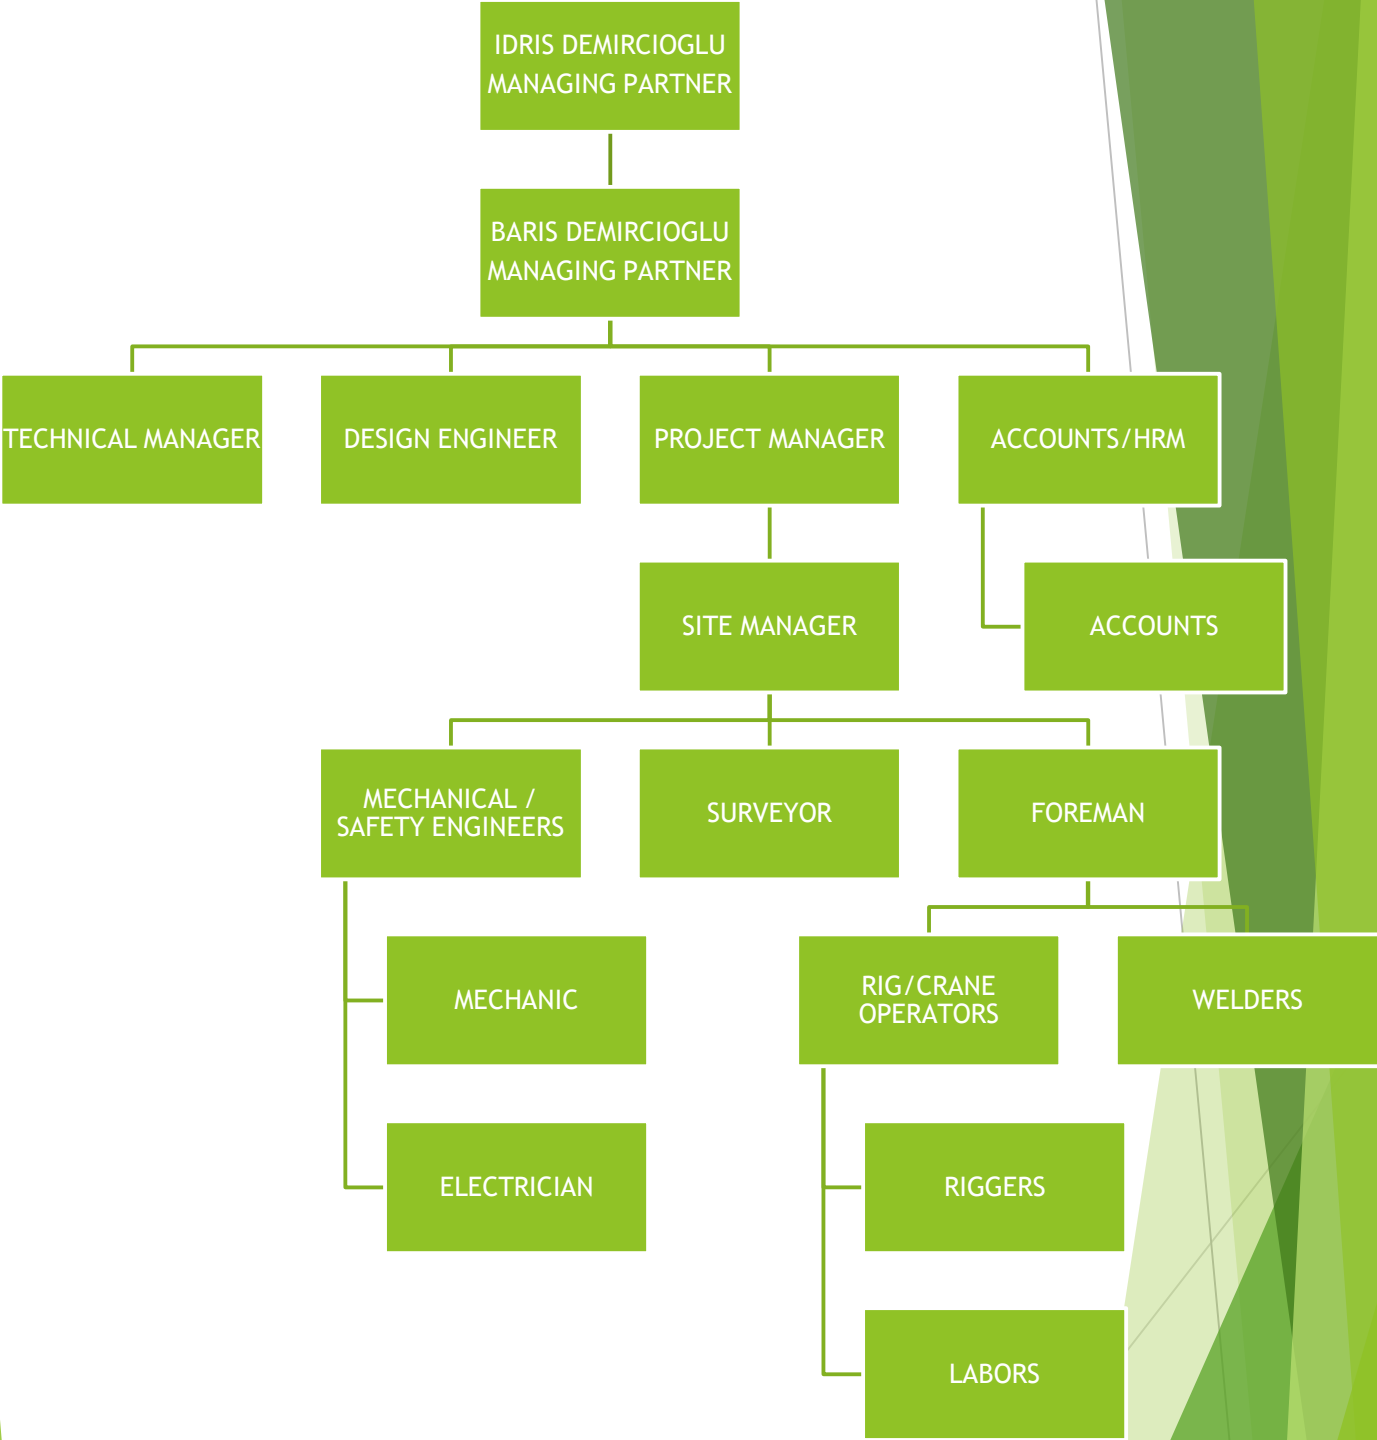

ABOUT US

Geomar Gulf has the capability to undertake large projects as we have the expertise, experience, full range of powerful machineries and equipment as well as a strong financial backing of the Al Shafar Group.

Over the years, Geomar Gulf has developed extensively. Our areas of capability for **onshore** and **offshore** projects are listed but are not limited to the following:

- Instrumentation, monitoring and testing
- Shoring Systems
 - o Shoring with soldier steel profiles
 - o Diaphragm Wall
 - o Shoring system with secant piles
 - o Shoring with sheet piles
 - o Shoring system with contiguous piles
- Pile Foundations
 - o Bored cast in situ piles
 - o All kinds of Driven piles
 - o Continuous flight auger (CFA) piles
 - o Cast in situ driven piles
- Macro piling
- Soil Improvement
- Jet grout
- Ground Anchors
 - o Permanent
 - o Temporary

ORGANIZATION CHART

EXPERIENCE IN OIL & GAS SECTOR

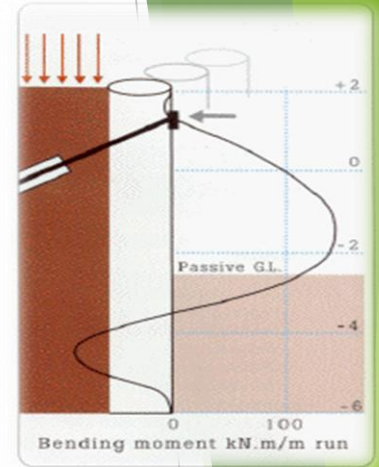

Geomar Gulf LLC has personnel that completed several piling and shoring works in Oil and Gas Sector in UAE, Kazakhstan, Saudi Arabia, Turkey and Azerbaijan.

Project Name	Year	Client	Activity	Location
Tengiz Oil Plant debottlenecking project	1997-1999	Tengiz Chevroil	220cm mini piling works	Kazakhstan
Tengiz Oil Plant expansion project (TRAIN 5)	1998-2001	Tengiz Chevroil	30x30cm precast pile driving	Kazakhstan
Tengiz Oil Plant Tank Farm	1999-2000	Tengiz Chevroil	Sheet Pile driving for cofferdams	Kazakhstan
Gizan Plant	2002	ARENCO	Piling Works	Saudi Arabia
Second Generation Project & Sour Gas Injection Project	2003-2005	Tengiz Chevroil	Precast pile driving & Sheet Pile driving for cofferdams	Kazakhstan
C&WP Topside Project	2003	BP	600mm stone columns	Azerbaijan
Izmir Aliaga Natural Gas Combined Cycle Power Plant	2000	Bechtel-Enka	600mm jet-grout columns	Turkey
Desulphurization Plant	2010-2011	Hyundai	600mm bored piles	Turkmenistan
Ras Al Khaimah Gas Plant	2009	Rak Gas Authority	Shoring works with contiguous piles	RAK, UAE
Replacement of Underground Fuel Storage Tanks	2013	Wade Adams	Shoring works with sheet piles with strut	Sharjah, UAE

DESIGN TECHNOLOGY

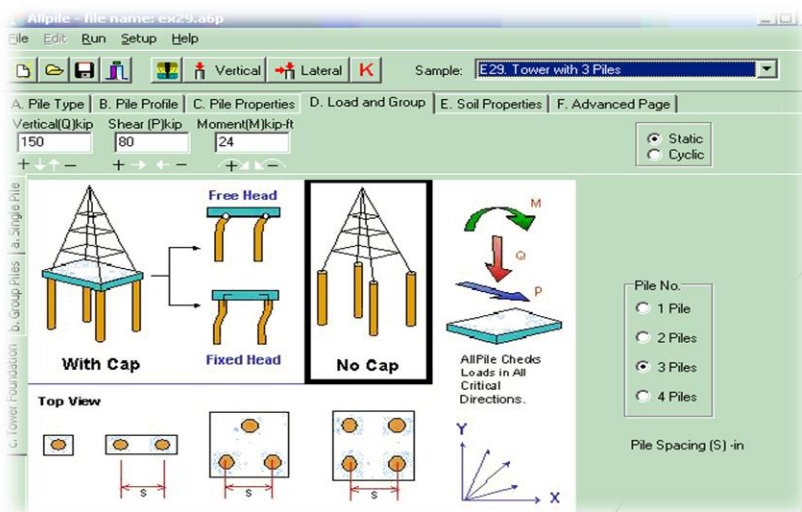

Geosolve Wallap

WALLAP is a powerful, fast and user-friendly program for analysing the stability of cantilevered and propped retaining walls. WALLAP is suitable for the analysis of both temporary works, such as sheet pile walls, and permanent works such as reinforced concrete diaphragm walls and contiguous bored pile walls.

Civiltech Allpile

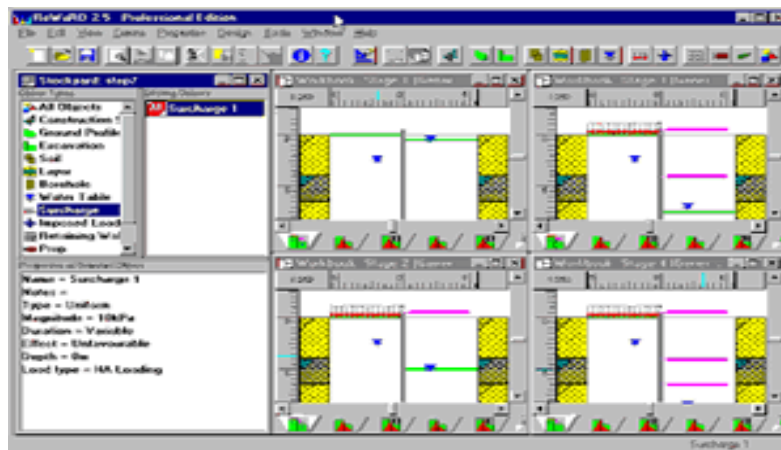

AllPile is a Windows-based analysis program that handles virtually all types of piles, including steel pipes, H-piles, pre-cast concrete piles, auger-cast piles, drilled shafts, timber piles, jetted piles, tapered piles, piers with bell, micropiles (minipiles), uplift anchors, uplift plate, and shallow foundations.

DESIGN TECHNOLOGY

Geocentrix ReWaRD

ReWaRD is one of the leading programs for the design of embedded retaining walls, incorporating several UK and international design standards including BS 8002 and Eurocode 7. Designed by engineers for engineers, ReWaRD draws upon the technical expertise of Geocentrix to produce the most powerful and user-friendly set of tools for retaining wall design.

Autodesk Autocad

AutoCAD® design and documentation software, one of the world's leading 2D and 3D CAD tools. Speed documentation, share ideas seamlessly, and explore ideas more intuitively in 3D. With thousands of available add-ons, AutoCAD software provides the ultimate in flexibility, customized for specific needs.

KEY PERSONNEL CV

Name	IDRIS DEMIRCIOLU	
Position	GENERAL MANAGER (2004 – Present)	
Educational Qualifications	Bachelor of Science Degree in Geological Engineering Middle East Technical University ANKARA, TURKEY	
Email	Idris@geomargulfllc.com info@geomargulfllc.com	
Mobile	+971 50 456 8695 +971 4 320 9897	
Expertise	40+ years Working experience in Piling and Ground Improvement works in Several Countries like, UAE, KAZAKSTAN, SAUDI ARABIA, TURKEY, OMAN, RUSSIA, AZERBAIJAN, TURKMENISTAN. • Project & Site management, Operations, Planning & Monitoring. • Can conduct different field test like Pumping test, Packer test, Permeability Tests, Field density, Mackintosh Probe, Soil Electric Resistivity test etc. • Experienced in Anchoring, Grouting, Ground improvement and Pilling jobs. Monitoring and supervising Pile tests	
Work Experience	GEOMAR GULF LLC, DUBAI, UAE. (Managing Partner: 2004 – Present) • Onshore and Offshore Piling Works • Foundations Contracting (Ground improvement, Pilling, Shoring, Anchoring Dewatering) • Drilling services for well logging, water well, Dewatering purposes etc. BECHTEL ENKA GROUP – KASKTAS PILING & FOUNDATION, Turkey 1985 – 2004: Project Manager / General Manager / Area Manager for different Onshore & Offshore Infrastructure Piling Works STATE HYDRAULIC WORKS, Turkey 1980 – 1985: Site Engineer for Construction of Dams	
Recent Prestigious Projects At Geomar Gulf LLC	• Onshore Piling works at Dubai Metro Blue Line – BG33 & BG32 Station – Dubai, UAE (Main Contractor: MLCC, Consultant: PAJV) • Offshore Sheet Pile works at Dubai Metro Blue Line – Temporary Jetty – Dubai, UAE (Main Contractor: MLCC, Consultant: PAJV) • Offshore Piling works for Development of Marine Landside Infrastructure at Delma Port, Jebel Dhana Ferry Terminal and Al Sila at Jebel Dhanna and Delma Island - Abu Dhabi, UAE (Main Contractor: China harbour Engineering LLC, Consultant: Egis) • Offshore Piling works at Al Marjan mainland Bridge to Island 3 – Ras Al Khaimah, UAE (Main Contractor: China harbor Engineering LLC, Consultant: Jacobs) • Offshore piling works MOT Safwa Rahima Link Sea Bridge's – Saudi Arabia (Main Contractor: Shade Corporation, Consultant: Euro Group) • Offshore piling works Abu Al Abyad Bridge Project - Abu Dhabi, UAE (Main Contractor: NMDC) • Offshore piling works for Etihad Rail Package 2F2 in Khalifa Port	

(Main Contractor: L&T JV Power China, Consultant: Jacobs)

- Offshore piling works for **Squadron 3 in Sharjah Khalid Port** – UAE (Main Contractor: Septech, Consultant: Applied Technology &)
- Piling works for **Etihad Rail Package 2D in Sharjah** – Fujairah, UAE (Main Contractor: Etihad Rail, Consultant: Jacob & Systra)
- Offshore piling works for **Dubai Harbour Marina** (Main Contractor: Septech, Consultant: ATM Design Engineering, Consulting, COWI, Jacobs, International Marina Consultants Management)
- Piling works for Expansion of **Container Terminal 1 in Khalifa Port** (Main Contractor: L & T Construction, Consultant: AECOM)
- Piling works for **Improvements of EXPO 2020 Road Networks** – Package 1&5 - Dubai, UAE (Main Contractor: China Harbour Engineering LLC)
- Piling works & Slope Protection and Stabilization for BidBid Sur Dualization Project, OMAN

KEY PERSONNEL CV

Name	BARIS DEMIRCIOLU	
Position	MANAGING DIRECTOR (2017 – Present)	
Educational Qualifications	1. BSc in Geophysics Engineering: Istanbul Technical University 2. The American Robert College	
E-mail	baris@geomargulfllc.com , bardem@gmail.com	
Mobile	+971 52 985 8252	
Expertise	• Execution of Piling and Shoring systems onshore and offshore • Execution of Piling tests onshore and offshore • Project management, Operations, Planning • Tender preparation, Estimation, Resource allocation • Contracts, FIDIC	
Work Experience	GEOMAR GULF LLC, UAE. (Managing Director: 2017 – Present) TALENT MANAGEMENT CO, TURKEY (Managing Partner: 2014 – 2017) GEOMAR GULF LLC, TURKEY & UAE. (Site Manager: 2012 – 2014)	
Prestigious Projects	• Onshore Piling works at Dubai Metro Blue Line – BG33 & BG32 Station – Dubai, UAE (Main Contractor: MLCC, Consultant: PAJV) • Offshore Sheet Pile works at Dubai Metro Blue Line – Temporary Jetty – Dubai, UAE (Main Contractor: MLCC, Consultant: PAJV) • Offshore Piling works for Development of Marine Landside Infrastructure at Delma Port, Jebel Dhana Ferry Terminal and Al Sila at Jebel Dhanna and Delma Island - Abu Dhabi, UAE (Main Contractor: China harbour Engineering LLC, Consultant: Egis) • Offshore Piling works at Al Marjan mainland Bridge to Island 3 – Ras Al Khaimah, UAE (Main Contractor: China harbour Engineering LLC, Consultant: Jacobs) • Offshore piling works MOT Safwa Rahima Link Sea Bridge's – Saudi Arabia (Main Contractor: Shade Corporation, Consultant: Euro Group) • Offshore piling works Abu Al Abyad Bridge Project - Abu Dhabi, UAE (Main Contractor: NMDC)	

KEY PERSONNEL CV

	• Offshore piling works for Etihad Rail Package 2F2 in Khalifa Port (Main Contractor: L&T JV Power China, Consultant: Jacobs) • Offshore piling works for Squadron 3 in Sharjah Khalid Port – UAE (Main Contractor: Septech, Consultant: Applied Technology & Management) • Piling works for Etihad Rail Package 2D in Sharjah – Fujairah, UAE (Main Contractor: Etihad Rail, Consultant: Jacob & Systra) • Offshore piling works for Dubai Harbour Marina (Main Contractor: Septech, Consultant: ATM Design Engineering, Consulting, COWI, Jacobs, International Marina Consultants Management) • Piling works for Expansion of Container Terminal 1 in Khalifa Port (Main Contractor: L & T Construction, Consultant: AECOM) • Piling works for Improvements of EXPO 2020 Road Networks – Package 1&5 - Dubai, UAE (Main Contractor: China Harour Engineering LLC) • 24 Onshore, 28 Offshore Piling Projects

HEALTH, SAFETY & ENVIRONMENT

Geomar Gulf Health and Safety Plan identify and encompass the working behaviors and safe working practices and mandatory for the project. All levels of management from General Manager to Site Supervisor have a responsibility to ensure that those people working under their control are not exposed to unnecessary risk whilst they are at work.

The duty of care extends beyond what is legally required and covers the moral responsibility that all persons have to ensure others are not harmed by their acts or omissions.

To comply with its legal and moral responsibilities has the following objectives;

- Promote and maintain a safe and healthy working environment
- Provide suitable training, instruction, information
- Implement management system in compliance with the international practices and standards to support continual improvement
- Review operations and implement any necessary pre-caution

This Policy is written to assist Geomar Gulf LLC employees, consultants, vendors and other involved parties to play their part in maintaining the highest possible standards of safe working.

Geomar Gulf General Manager has the overall responsibility to manage health & safety and oversee the full implementation of this requirement on behalf of the company.

Idris Demircioglu
Managing Partner

HEALTH, SAFETY & ENVIRONMENT

Leadership and Accountability

Geomar Gulf management team will visibly demonstrate their commitment to safety, health and welfare of all stakeholders in the project and will achieve the highest attainable standard. Every manager/director will instruct their staff in any delegated duties or responsibilities they may be given to fulfill the company's health and safety arrangements and will ensure adequate resources are made available to maintain these standards. The requirements of the Company's Health and Safety Policies and Arrangements will be taken into account at the feasibility, planning design, procurement and construction stages of every project.

Incident Reporting

Any safety incident or accident occurring at site will be reported to Project Manager by Safety Supervisor. Project Manager will report to the Consultant Health and Safety Department immediately after receiving the report. Following this a short report will be prepared and issued to the Consultant Health and Safety Department and as required report to the appropriate government agencies and authorities in accordance with their requirements. Geomar gulf will produce a comprehensive report of any accident/incident within 24 hours. In the event of a serious accident/incident, Geomar Gulf Project Manager shall conduct a joint thorough investigation with Consultant and forward findings and recommendations to Client Health and Safety department within 7 days.

Investigation and Review

The accident investigation will start as soon as possible following the incident. Geomar Gulf Project Manager will ensure time between the accident and the investigation is kept to the minimum, this will enable either collection of better and more reliable information. In the case of fire investigation, Geomar Gulf Project Manager shall attend the scene of the fire as soon as practicable without endangering themselves to gather as much evidence and facts as possible.

HEALTH, SAFETY & ENVIRONMENT

First Aid Arrangements

At least one qualified first- aider will be present on site at any time during the working hours. The name of the first-aider will be displayed at the site office and on the safety board on-site. First aid boxes will be placed in a clearly identified and readily accessible locations and contain a sufficient quantity of first aid materials. Contact information for hospitals, ambulance and police will be posted in key locations.

Fire Arrangements

Fire on site is a significant risk due to the number of people present, the type of materials used and the work environment. Geomar Gulf shall assess the degree of fire risk for formulating and regularly updating the site fire safety plan. The site fire safety plan will be clearly displayed and communicated to all relevant parties. Safety supervisor shall liaise with the Geomar gulf project Manager to ensure that the plan is updated in line with the progress of the work and changes to the site environment.

Workplace Inspections and Monitoring

A procedure for workplace inspections and monitoring is established. This will be based upon The Geomar Gulf Health and Safety Workplace Inspection and Performance Monitoring Systems.

Risk Assessment and Control Measures

Geomar Gulf will identify hazards and potentially hazardous work operations. For each operation identified involving a previously identified hazard the company shall conduct a Risk Assessment, which shall:

- Describe the operation to be performed in sequence of the basic job steps.
- Identify the hazard or potential hazard.
- Describe how the hazard will be managed

HEALTH. SAFETY & ENVIRONMENT

During the contract Geomar Gulf may identify additional hazardous operations. For each such newly identified hazardous operation consultant/contractor shall prepare and submit to the Project Management Representative a Risk Assessment as described above. Geomar Gulf will not proceed with the operation in hazardous locations until the Project Management Representative has reviewed the Risk Assessment and a valid permit to work has been issued.

HEALTH, SAFETY & ENVIRONMENT

Geomar Gulf is committed to pursue a policy aimed at minimizing environment damage and maximizing opportunities for environment improvement that comply with ISO 14001.

- Maintenance of good environmental practice in relations to all operations and services
- Compliance with relevant environmental legislation and regulations.
- Prevention of pollution
- Improvement of environmental performance

Geomar Gulf will make conservation of the environment a priority in its planning and operation. It will operate its facilities, handle raw materials and products in way that will provide for the health of its employees, the public and the protection of the environment. It will promote environmental protection awareness and responsibility in its employees, contractors, suppliers and customers. It will continually endeavor to reduce the amount of toxicity of emissions, discharges and wastes and will cooperate and governmental agencies and the local community on environmental concerns.

On individual contracts, we shall endeavor to obtain the best advice from our clients concerning any environmental aspects of the contract and during the execution of our works we will manage and organize the works in a manner which will reduce, so far as is reasonably practical, environmental damage caused activities such as:

- Noise
- Dust
- Mud on highways and footpaths
- Effluent arising from works
- Storage and use of fuels and mineral oils

HEALTH. SAFETY & ENVIRONMENT

We will also take effective precautions to protect adjacent land, buildings and general public from any danger, discomfort or nuisance. All members of the company's management and supervision will be made aware of this policy and its contents. Geomar gulf LLC is committed to not only comply with this policy but to also seek continuous improvement with respect to environmental issues

COMPANY QUALITY SYSTEM

We, at Geomar Gulf shall aim to achieve and sustain excellence in all our activities and are committed to total Client Satisfaction by providing services which meet or exceed the Client expectations.

To satisfy the requirements of Quality Assurance System, operating procedures and Quality Control Plan shall define in details the application of each element of the Quality Assurance System.

With a view to ensure that the service is of desired quality we shall

- Inculcate quality assurance at all stages from procurement of materials to final installation and testing
- Ensure compliance with the applicable standards/codes and regulatory requirements.
- Attend and resolve complaints from Clients with agreed time schedules
- Ensure all employees are competent to carry out the duties required
- Ensure effective communication processes are in place
- Have a system to identify quality problems and to take corrective/preventative action
- Operate effective supplier management processes to ensure our suppliers have the ability to provide safe and reliable service that meets our requirements.

The Quality Policy shall be understood, implemented and maintained by all personnel in the Company.

Idris Demircioglu
Managing Partner
